windows 10 operating system lecture 2

Windows 10 - Start Menu

- The Start Menu is the main point of access to your applications. There are two main ways to open it

قائمة "ابدأ" هي نقطة الوصول الرئيسية إلى تطبيقاتك. هناك طريقتان رئيسيتان لفتحها

Step 1 – Use your mouse to click Windows icon in the lower-left corner of the taskbar.

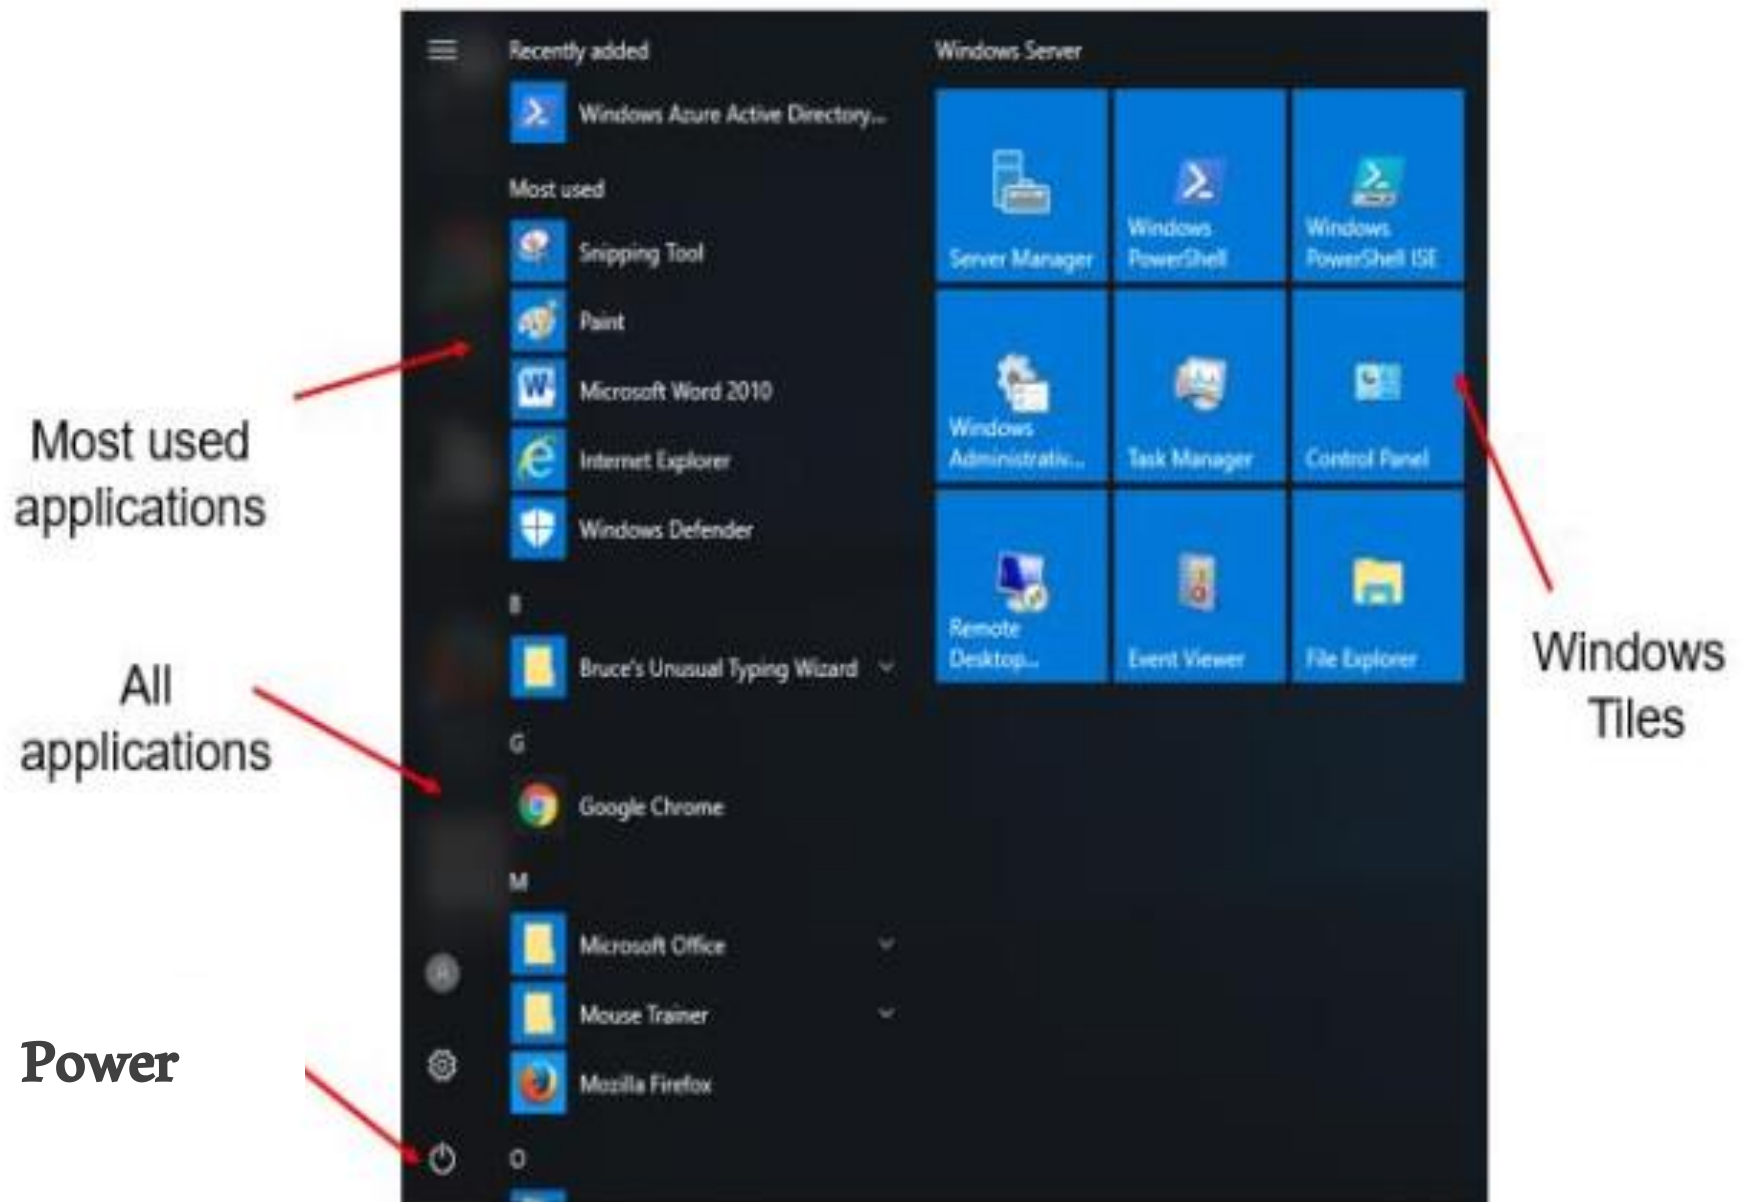

الخطوة ١ - استخدم الماوس للنقر فوق أيقونة  في الزاوية اليسرى السفلى من شريط المهام.

Step 2 – Press the Windows key on your keyboard.

الخطوة ٢ - اضغط على مفتاح ويندوز على لوحة المفاتيح.

Click the **Start Button** and the Start Panel will appear.

➤ Most Used Applications :

Shows the most recently used applications

تظهر التطبيقات الأكثر استخدامًا مؤخرًا

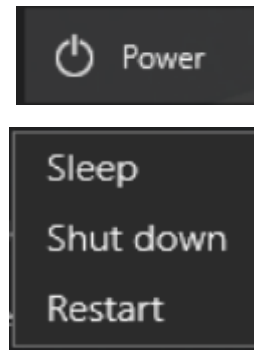

➤ All Applications

List of all the installed application

قائمة بجميع التطبيقات المثبتة

➤ Power

1. On the Start menu, select Power.
2. Select the option you want: Sleep, Shut down, or Restart.

١. من قائمة "ابدأ"، اختار
٢. حدد الخيار الذي تريده:

➤ Windows Tiles

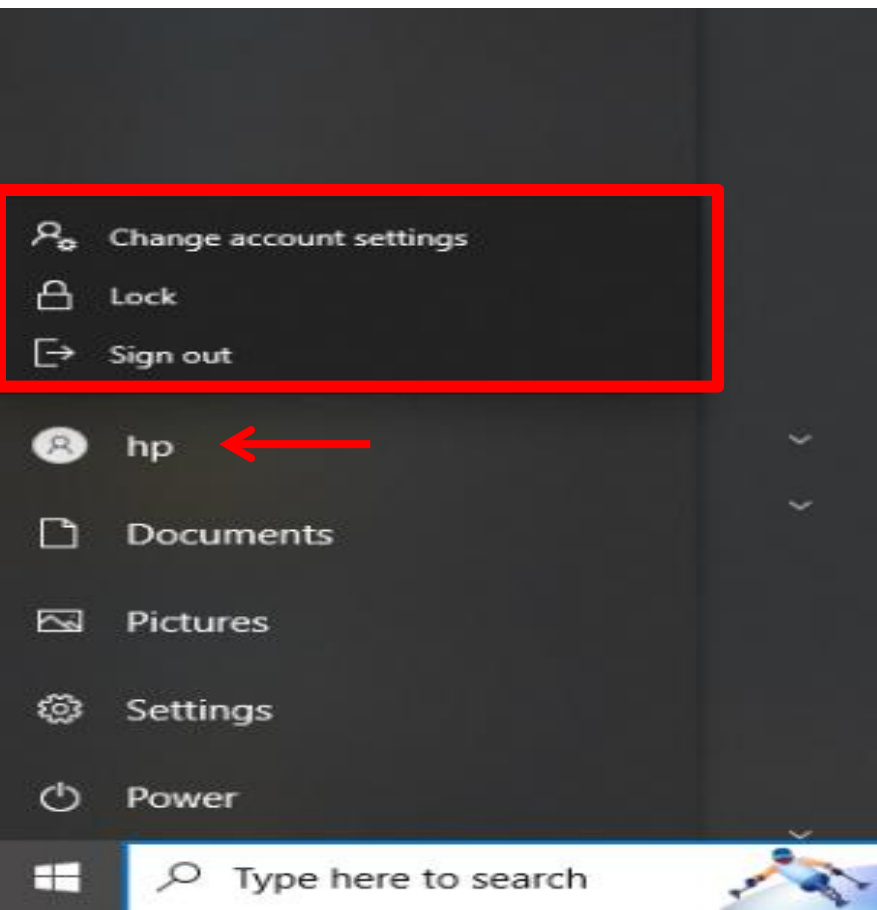

Displays the applications currently active in cell phone display mode

يعرض التطبيقات النشطة حاليًا في وضع عرض الهاتف المحمول

Lock your computer, change your account or sign out

- On the **Start menu**, click on your user name.
- Choose the option you want: Change account settings, Lock, or Sign out.

- في قائمة "ابدأ"، انقر فوق اسم المستخدم الخاص بك.
- اختر الخيار الذي تريده: تغيير إعدادات الحساب، و القفل، أو تسجيل الخروج.

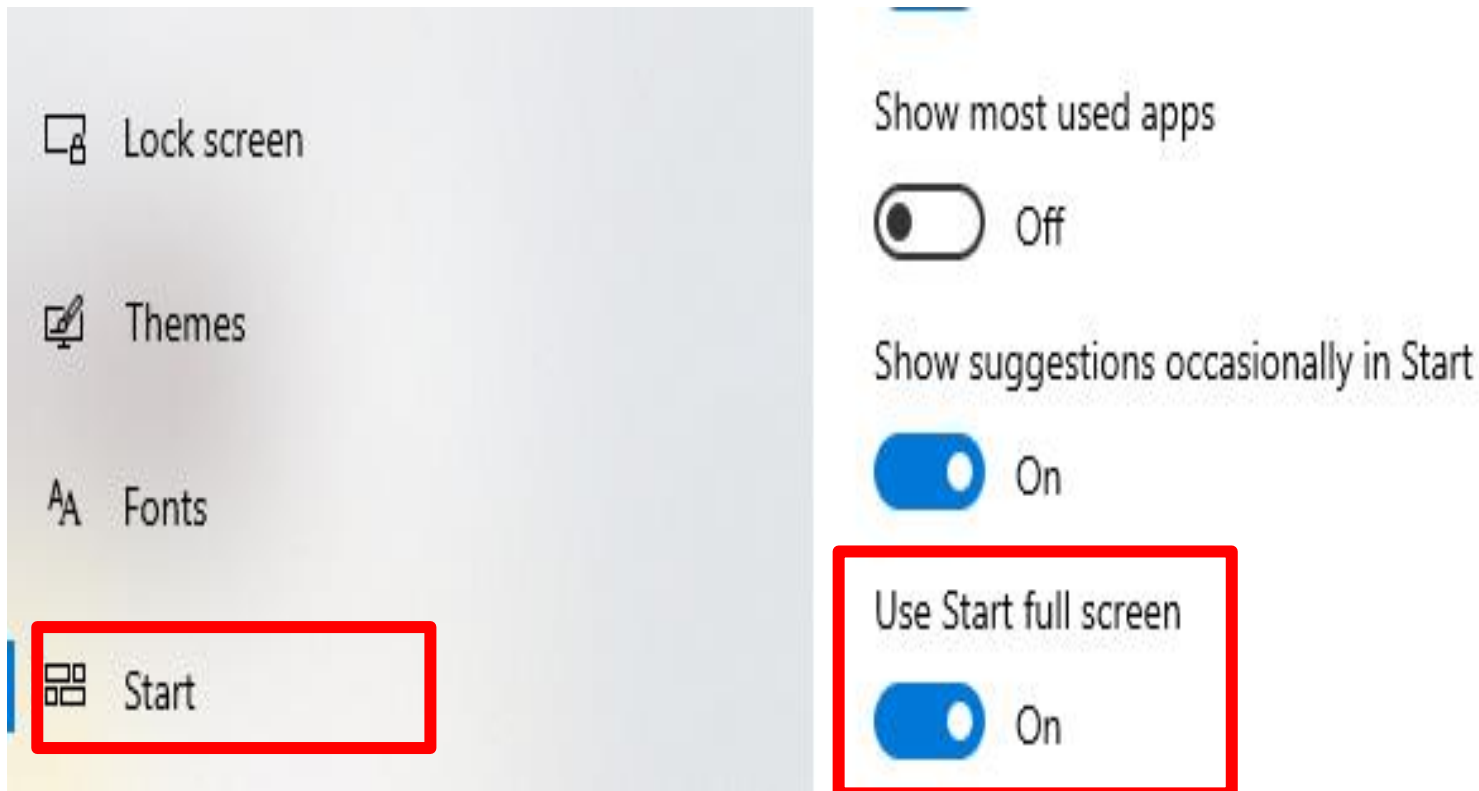

To switch between the default and full-screen Start screen

1. Open the **Settings** window.
2. Click **Personalization**, click **Start**.
3. Turn on the **Use Start full screen** toggle switch.

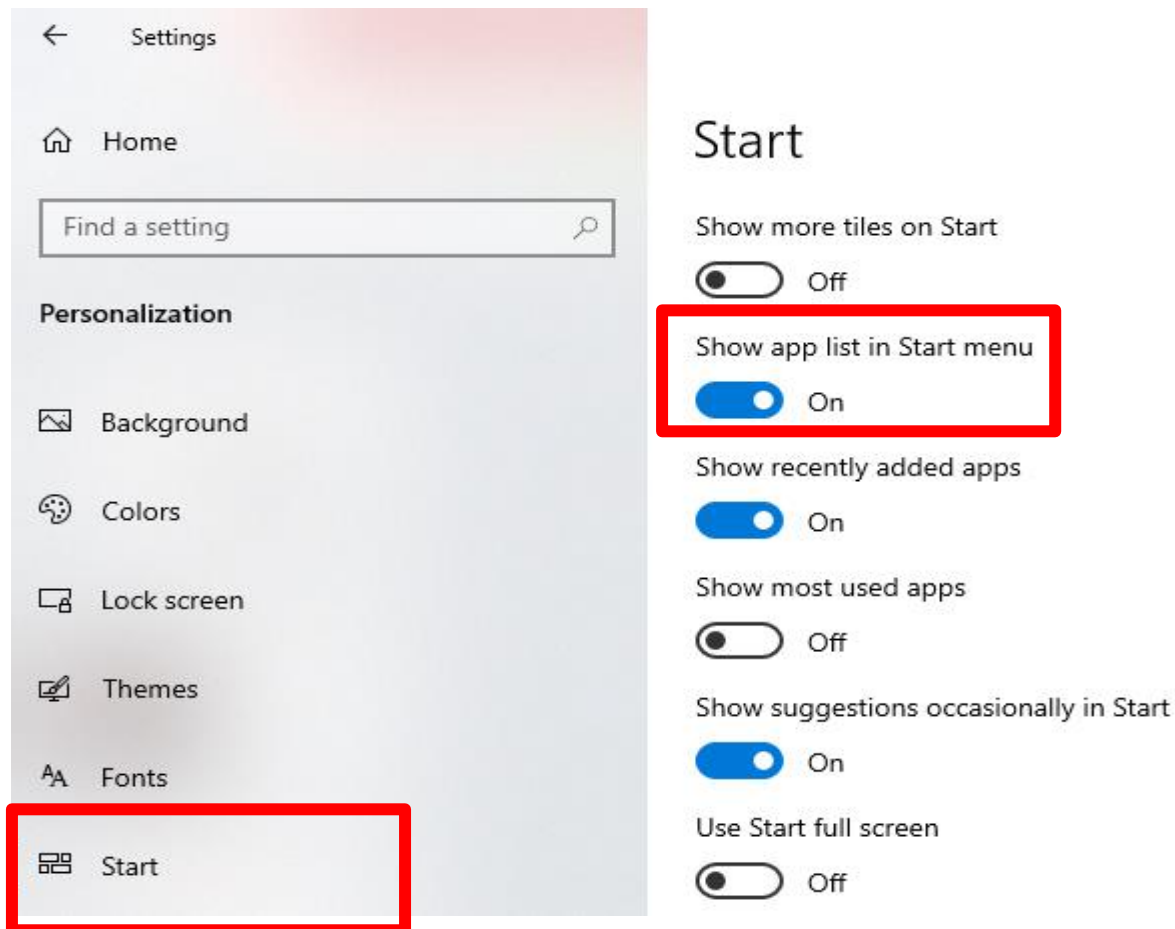

OR

Drag the right border of the Start screen right or left to increase or decrease its width

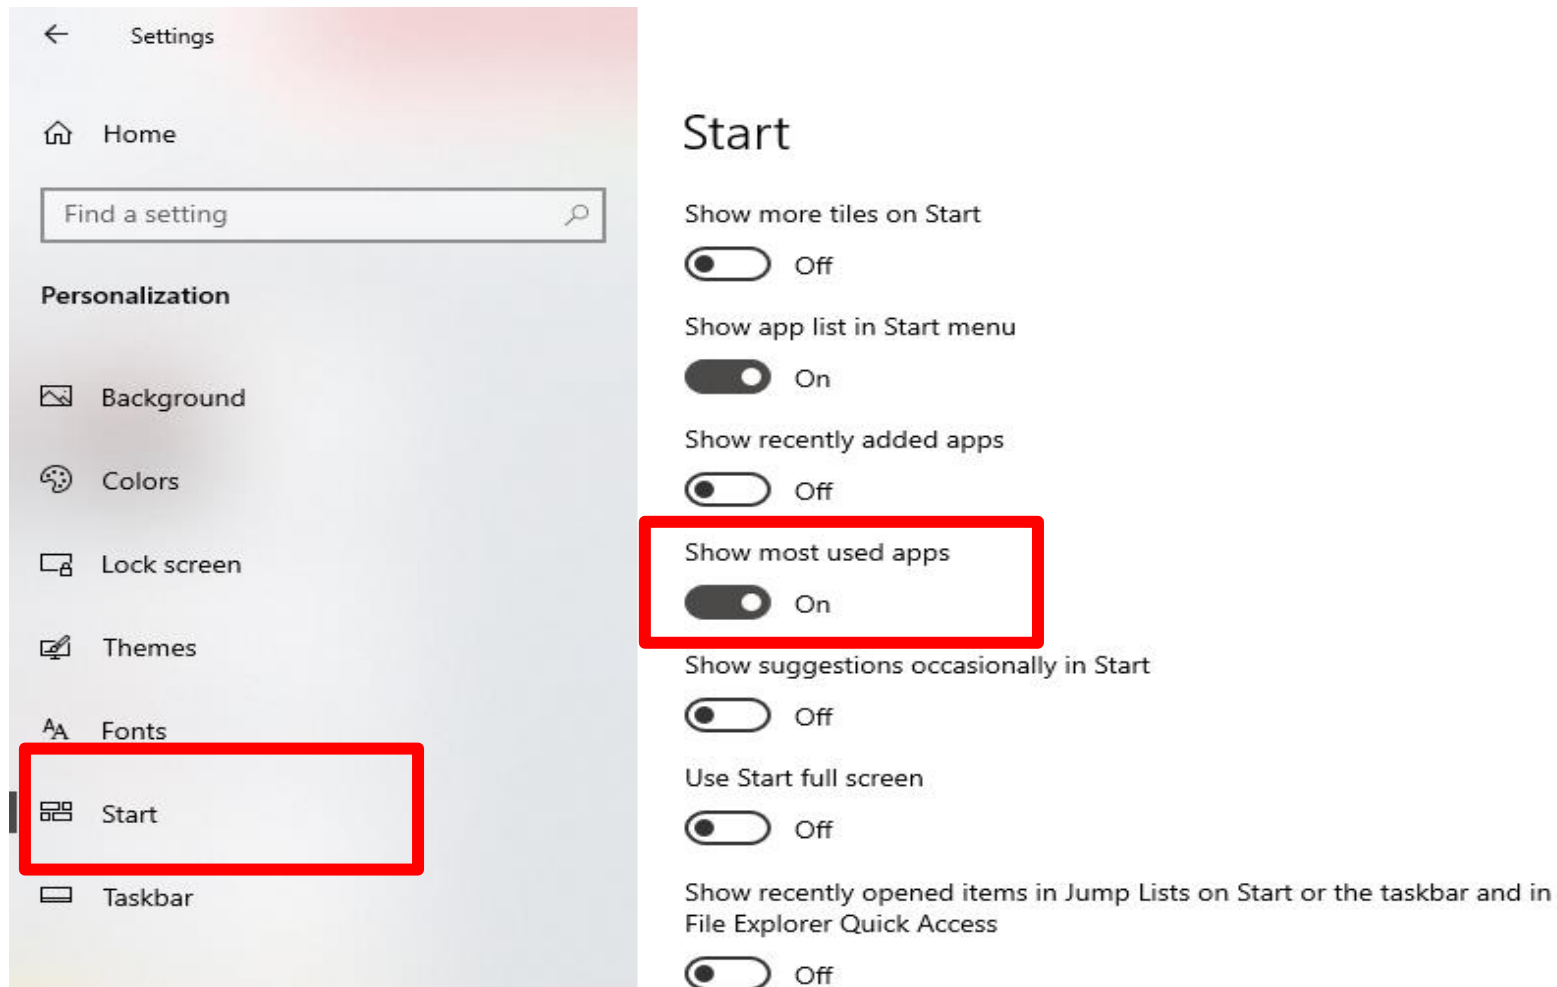

To Show or hide app list on the Start menu

1. Open the **Settings** window.
2. Click **Personalization**, click **Start**.
3. In the Start pane, do any of the following:
 - Click **Show app list in the Start** to **turn off** or **on**

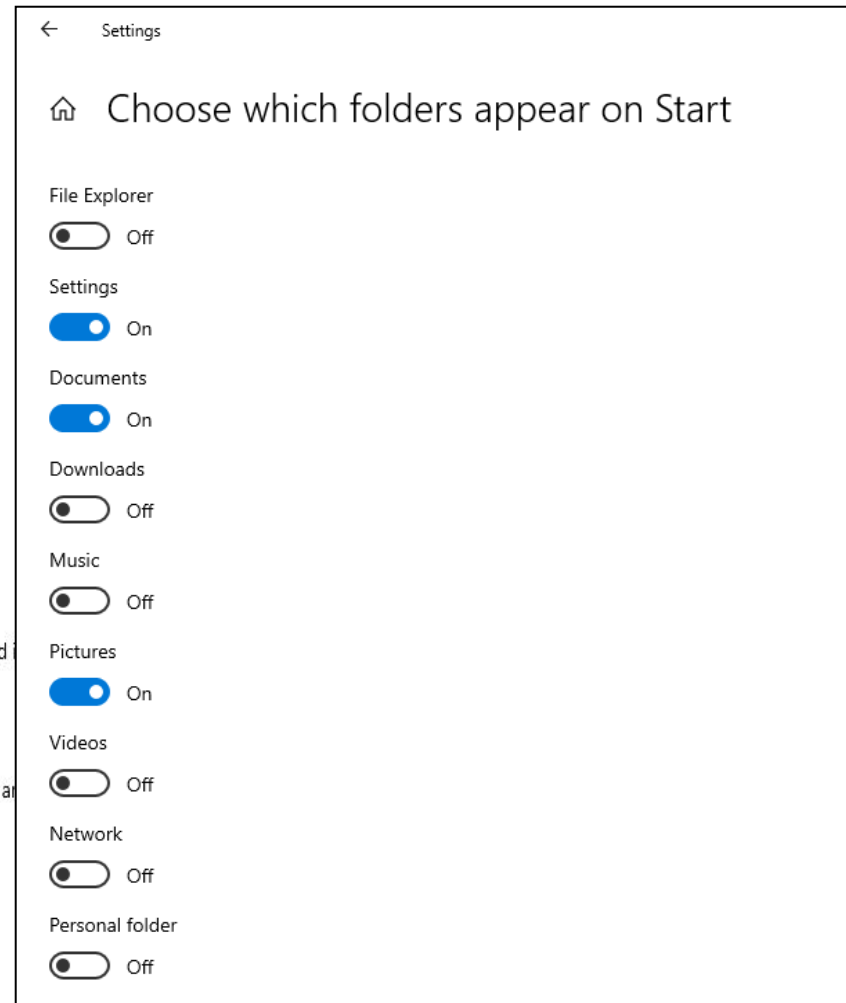

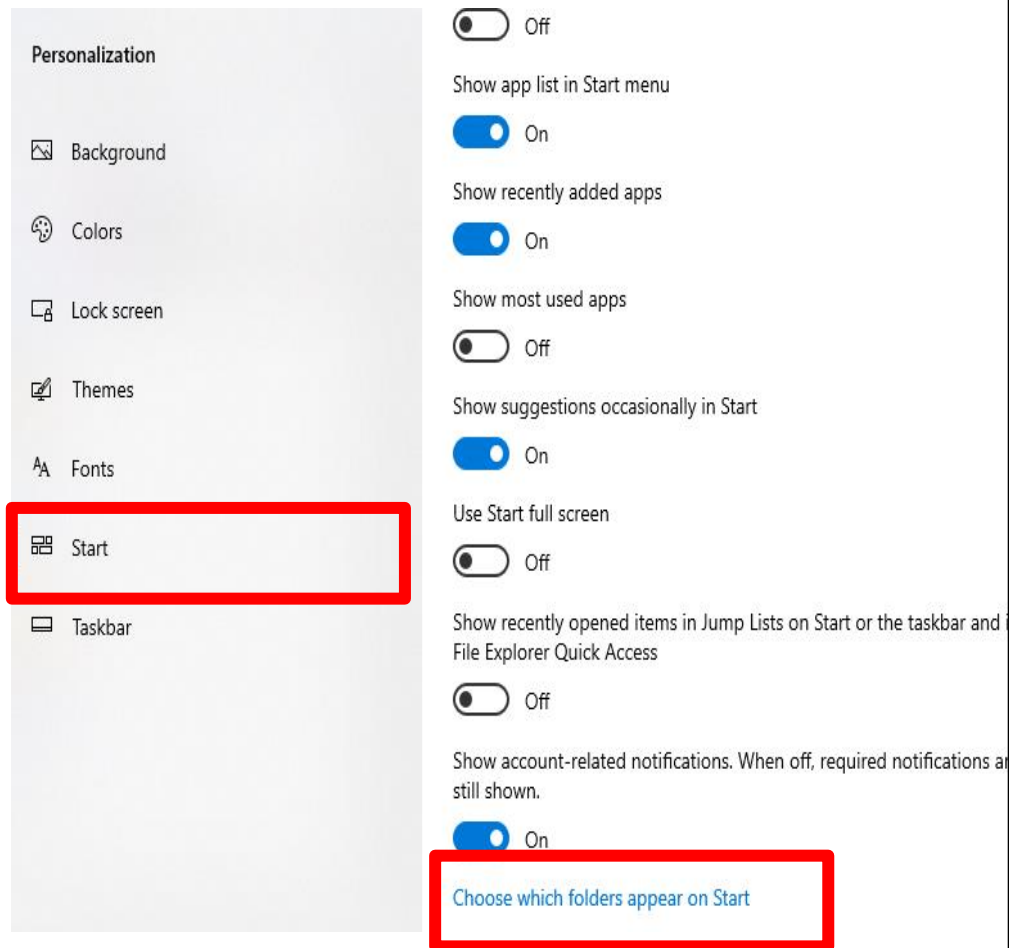

To add Most Used Apps to the Start Menu

1. Open the **Settings** window.
2. Click **Personalization**, click **Start**.
3. In the Start pane, do any of the following:
 - Click **Show most used apps** to **turn off** or **on**

To add or remove folders on the Start menu

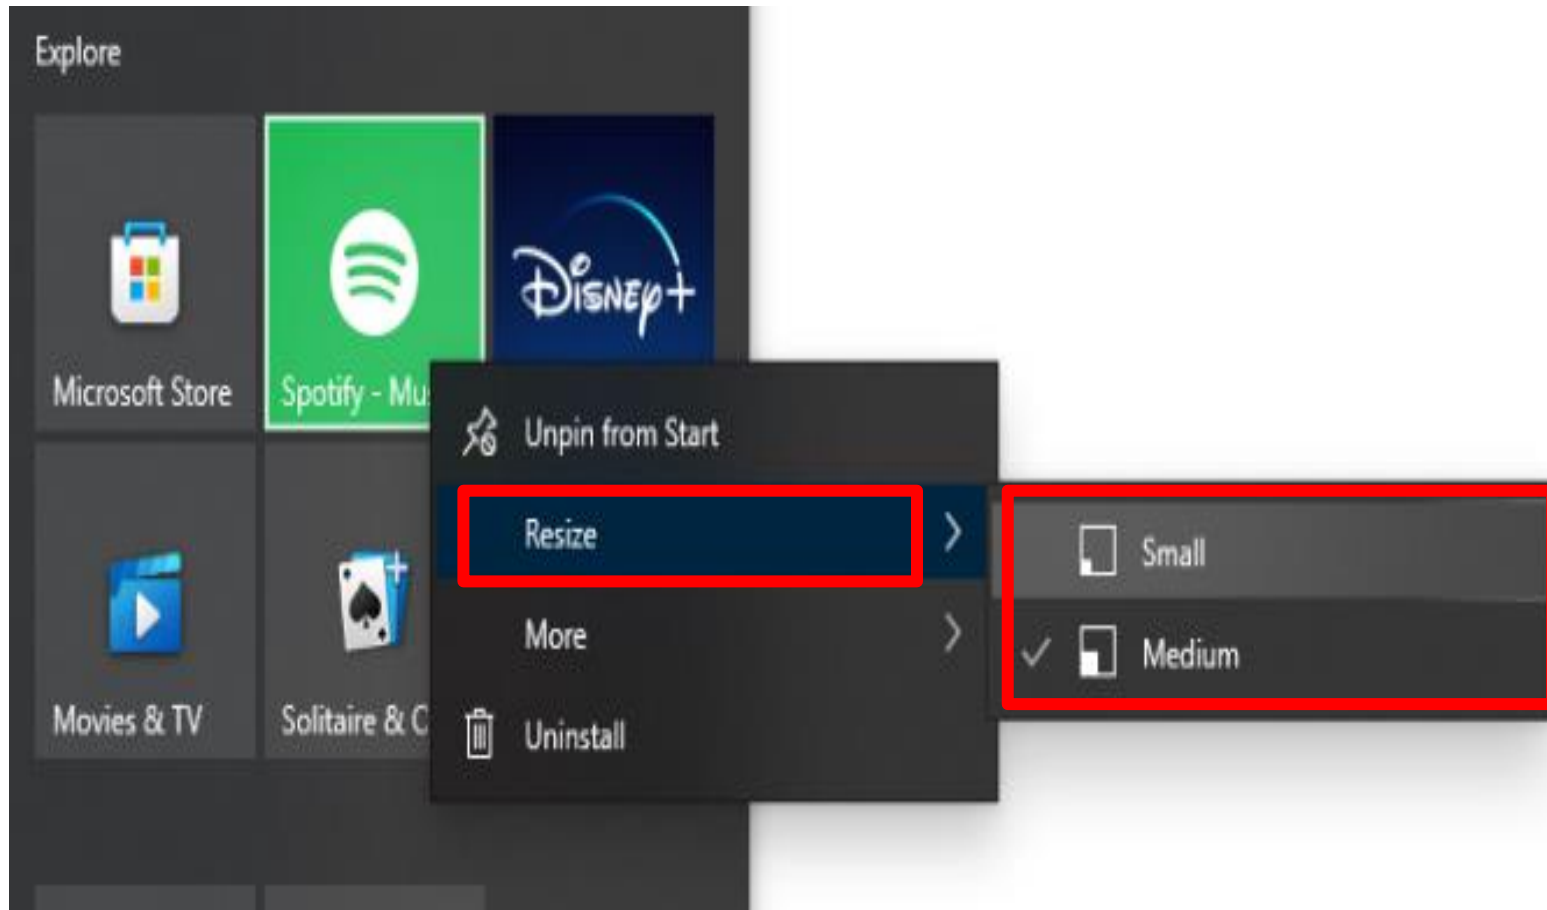

1. On the **Personalization** page of the **Settings** window, click **Start**.
2. At the bottom of the Start pane, click **Choose which folders appear on Start** to display a list of options, each with a toggle button.
3. On the **Choose which folders appear on Start** page, set the toggle buttons for the folders that you want to appear on the Start menu to On, and the others to Off.

To resize a Start screen tile

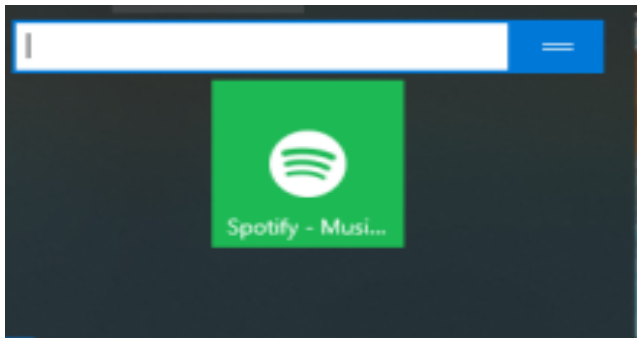

Do one of the following:

- 1- Right-click the **tile**, and then click **Resize**.
- 2- Click the tile size you want (Small, Medium...).

To create a new tile group

1. Drag a tile to an open space above, below, or to the side of an existing group.
2. When a shaded bar (a blank tile group title bar) appears, release the tile to create the tile group.
- 3- Tap Name group, and then enter the title you want to assign to the tile group.

Pin and unpin apps in start menu

- 1- Right-click on the app, then select **Pin to Start**
 - 2- From Explorer, Right-click on a folder and select **Pin to Start**
- To remove from the Start menu, Right-click on it and select **Unpin from Start**

How to Change the Desktop Background in Windows 10

The first method

1-**Right-click** on an empty space on the **desktop**

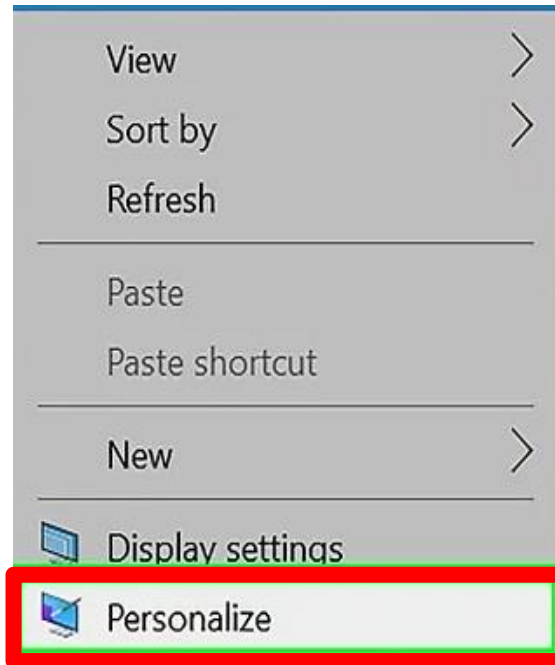

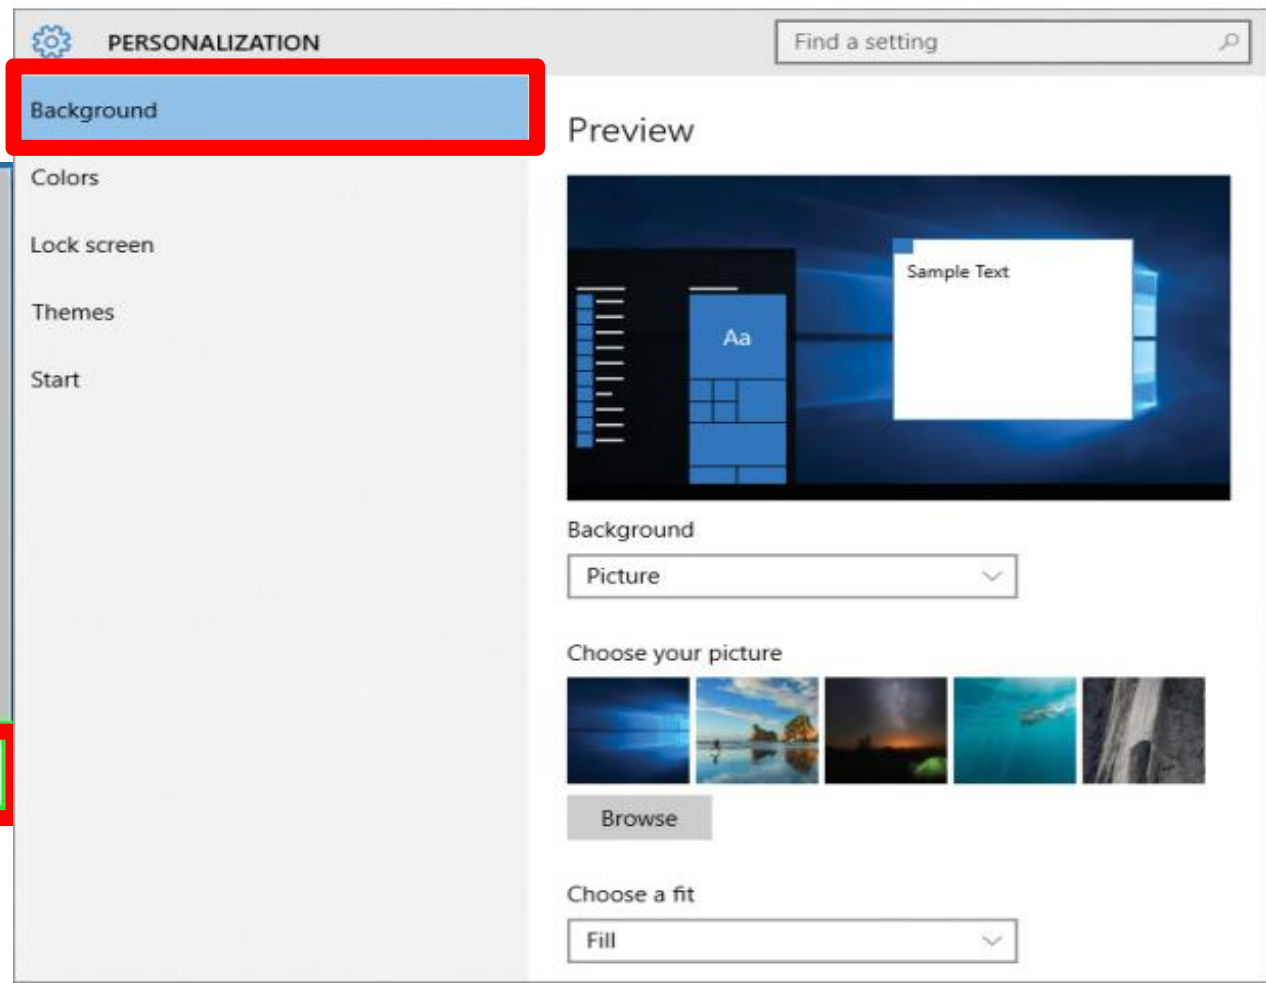

2- Click on **personalize**

3-Click the box below the "**Background**"

١- انقر بزر الماوس الأيمن على مساحة فارغة على سطح المكتب.

٢- انقر فوق «تخصيص»

٣- انقر فوق المربع الموجود أسفل "الخلفية"

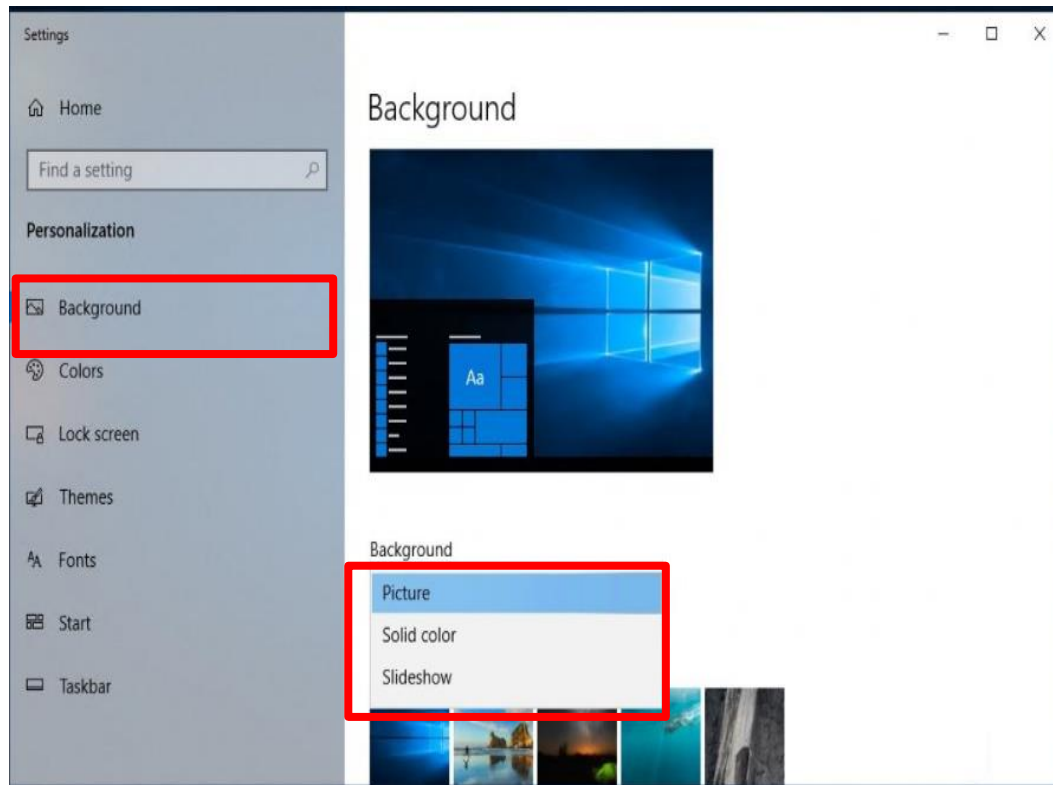

The second method

you can adjust the background as follows:

1-click on **Start menu** and selecting **setting**

2.Click on **personalize**

3.Select “**Background**” and choose the **picture**, **solid color**, or **slideshow** you wish to set as your desktop background.

يمكنك ضبط الخلفية على النحو التالي:

١. انقر فوق قائمة ابدأ واختر الإعدادات

٢. انقر فوق التخصيص

٣. حدد "الخلفية" واختر الصورة أو اللون الثابت أو عرض الشرائح الذي ترغب في تعيينه كخلفية لسطح المكتب.

picture :

Images are the most frequently employed option for desktop background themes. You could select a picture provided by Windows.

الصورة: الصور هي الخيار الأكثر استخدامًا لموضوعات خلفية سطح المكتب. يمكنك تحديد صورة يوفرها Windows.

Solid color:

It doesn't always have to be a picture. You could change your desktop background to a solid color. Windows provides a selection of colors.

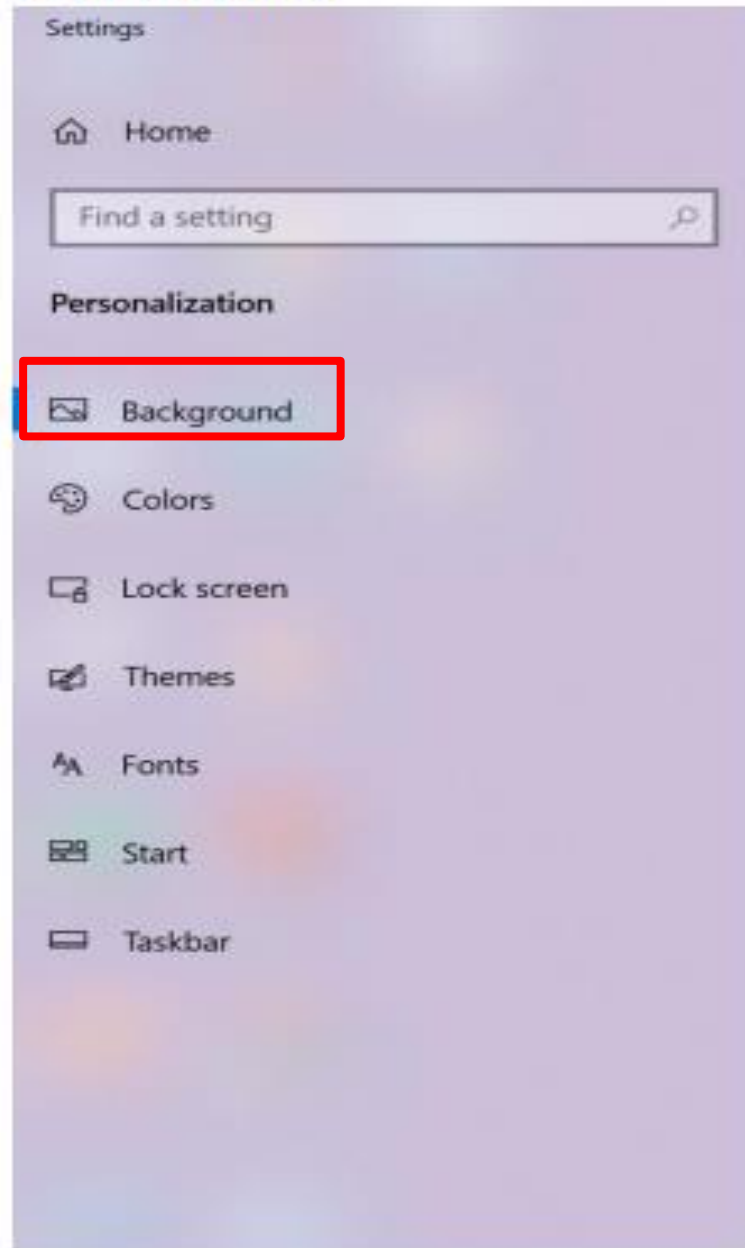

لون ثابت: لا يجب أن تكون صورة دائمًا. يمكنك تغيير خلفية سطح المكتب إلى لون ثابت. يوفر Windows مجموعة مختارة من الألوان.

Slideshow:

Don't want to settle for a single picture? You can set up a slideshow with any number of images. Just add them to the same folder for this purpose.

عرض الشرائح: لا تريد الاكتفاء بصورة واحدة؟ يمكنك إعداد عرض شرائح بأي عدد من الصور. ما عليك سوى إضافتها إلى نفس المجلد لهذا الغرض.

Choose solid color.

Custom color

To add your own, press the “**Browse**” button. Adjust the image arrangement via “**Choose a fit**”.

لإضافة صورك الخاصة، اضغط على زر "استعراض". اضبط ترتيب الصورة عبر "اختيار الملاءمة".

The screenshot shows the Windows Settings application, specifically the Personalization > Background section. The left sidebar contains navigation options: Home, Find a setting, Personalization, Background, Colors, Lock screen, Themes, Fonts, Start, and Taskbar. The main content area is titled 'Background' and features a large preview of the current background image. Below the preview, there is a 'Background' dropdown menu currently set to 'Picture'. Underneath, the 'Choose your picture' section displays three thumbnail images of different backgrounds, with a 'Browse' button below them. At the bottom, the 'Choose a fit' section shows a dropdown menu currently set to 'Fill'. A context menu is open over the 'Choose a fit' dropdown, listing the following options: Fill (highlighted), Fit, Stretch, Tile, Center, and Span. To the right of the main content area, there is a 'Preview your changes' section with instructions and a 'Go to Themes' link, followed by 'Related Settings' with links for 'High contrast settings' and 'Sync your settings', and finally a 'Have a question?' link.

When selecting **Picture** or **Slideshow** for your desktop background, you have several fit types to choose from. Each fit type determines how the images will be displayed on your screen. Here are the details:

1-**Fill**: this option enlarges the image to fill the entire screen.

2-**Fit**: this option adjusts the image to fit within the screen while maintaining its aspect ratio.

3-**Stretch**: this option stretches the image to cover the entire screen, which may distort the image

4-**Tile**: this option repeats the image across the screen.

5-**Center**: this option places the image in the center of the screen without resizing it.

6-**Span**: This option spans the image across multiple monitors.

- ١ - **Fill (ملء الشاشة)**: هذا الخيار يقوم بتكبير الصورة لتملأ الشاشة بالكامل.
- ٢ - **Fit (ملاءمة)**: هذا الخيار يضبط الصورة لتناسب الشاشة مع الحفاظ على أبعادها الأصلية.
- ٣ - **Stretch (تمديد)**: هذا الخيار يمدد الصورة لتغطي الشاشة بالكامل، وقد يؤدي ذلك إلى تشويه الصورة.
- ٤ - **Tile (تكرار)**: هذا الخيار يقوم بتكرار الصورة على كامل الشاشة.
- ٥ - **Center (توسيط)**: هذا الخيار يضع الصورة في وسط الشاشة دون تغيير حجمها.
- ٦ - **Span (امتداد)**: هذا الخيار يمدد الصورة عبر عدة شاشات (في حالة استخدام أكثر من شاشة).

Change mouse settings(تغيير إعدادات الماوس)

Access the mouse properties.

1- It will display the (Control Panel) screen.

2- While the Control Panel screen appears, you will select the (Hardware and Sound).

3-While the (Hardware and Sound) screen is displayed, you will select (Mouse) in the (Devices and Printers).

4-(Mouse Properties) screen opens. Various settings for mouse, do from here.

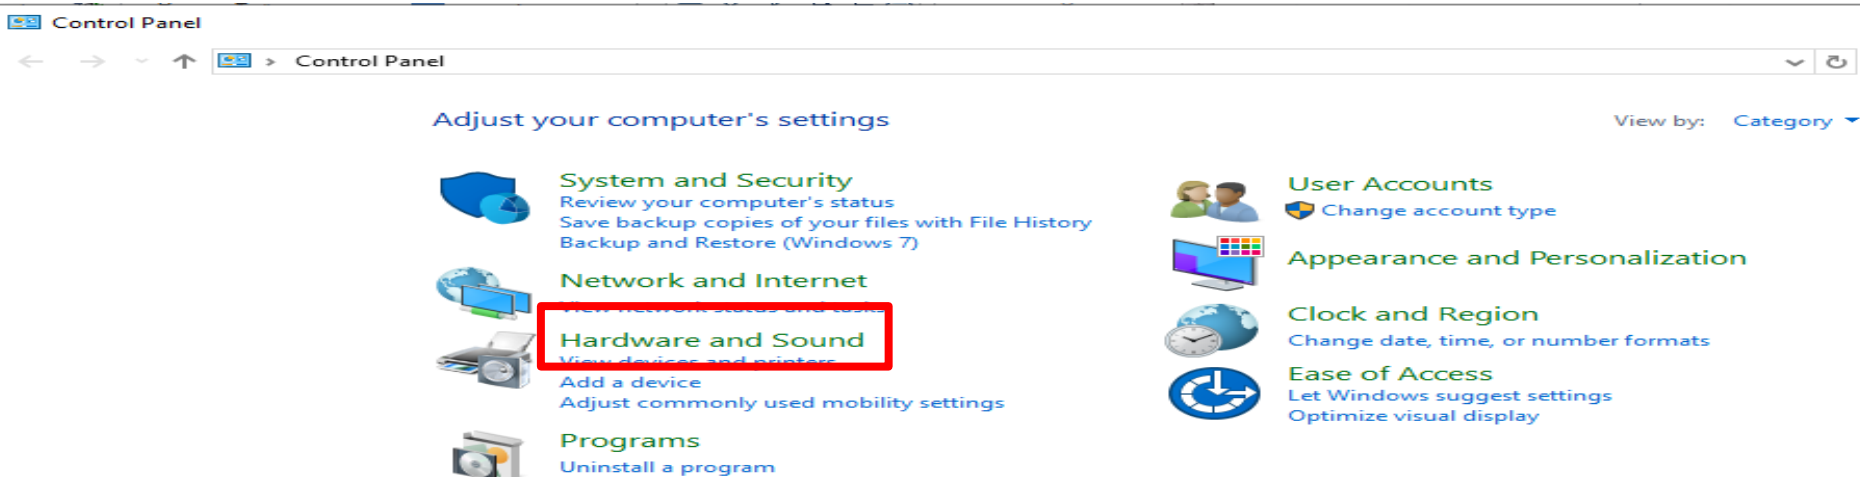

• الوصول إلى خصائص الماوس:

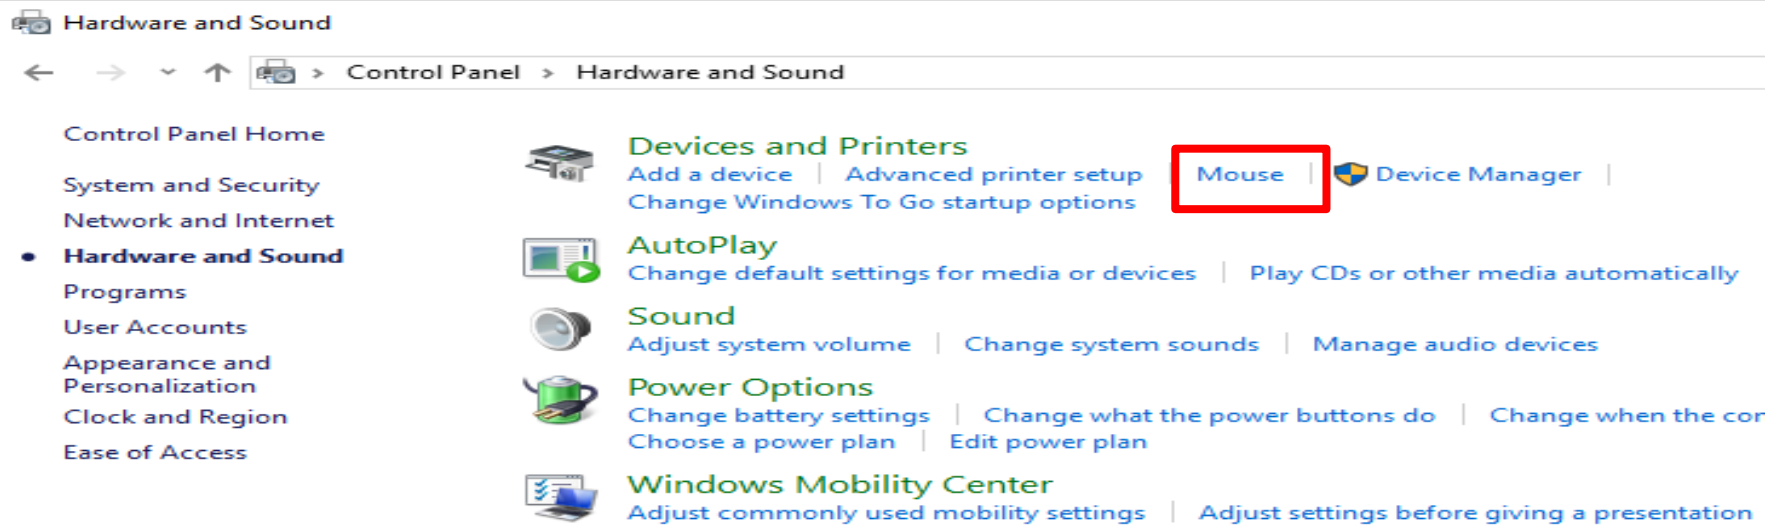

1- ستظهر شاشة لوحة التحكم (Control Panel)

2- عند ظهور شاشة لوحة التحكم، اختر (Hardware and Sound) الأجهزة والصوت.

3- عند ظهور شاشة الأجهزة والصوت، اختر (Mouse) الماوس ضمن قسم (Devices and Printers) الأجهزة والطابعات.

4- ستفتح شاشة (Mouse Properties) خصائص الماوس، ومن هنا يمكنك إجراء إعدادات مختلفة للماوس.

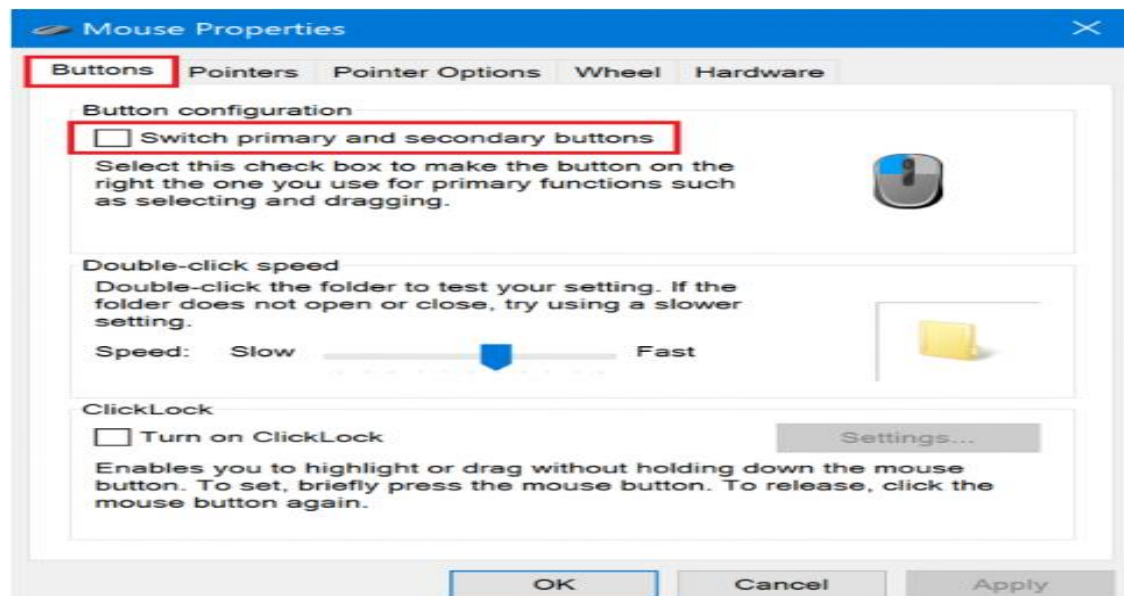

You want to change the assignment of the button in the right-click and left-click

1- In the Buttons tab of the Mouse Properties window, make sure it is checked in the Switch primary and secondary buttons on the Configure button.

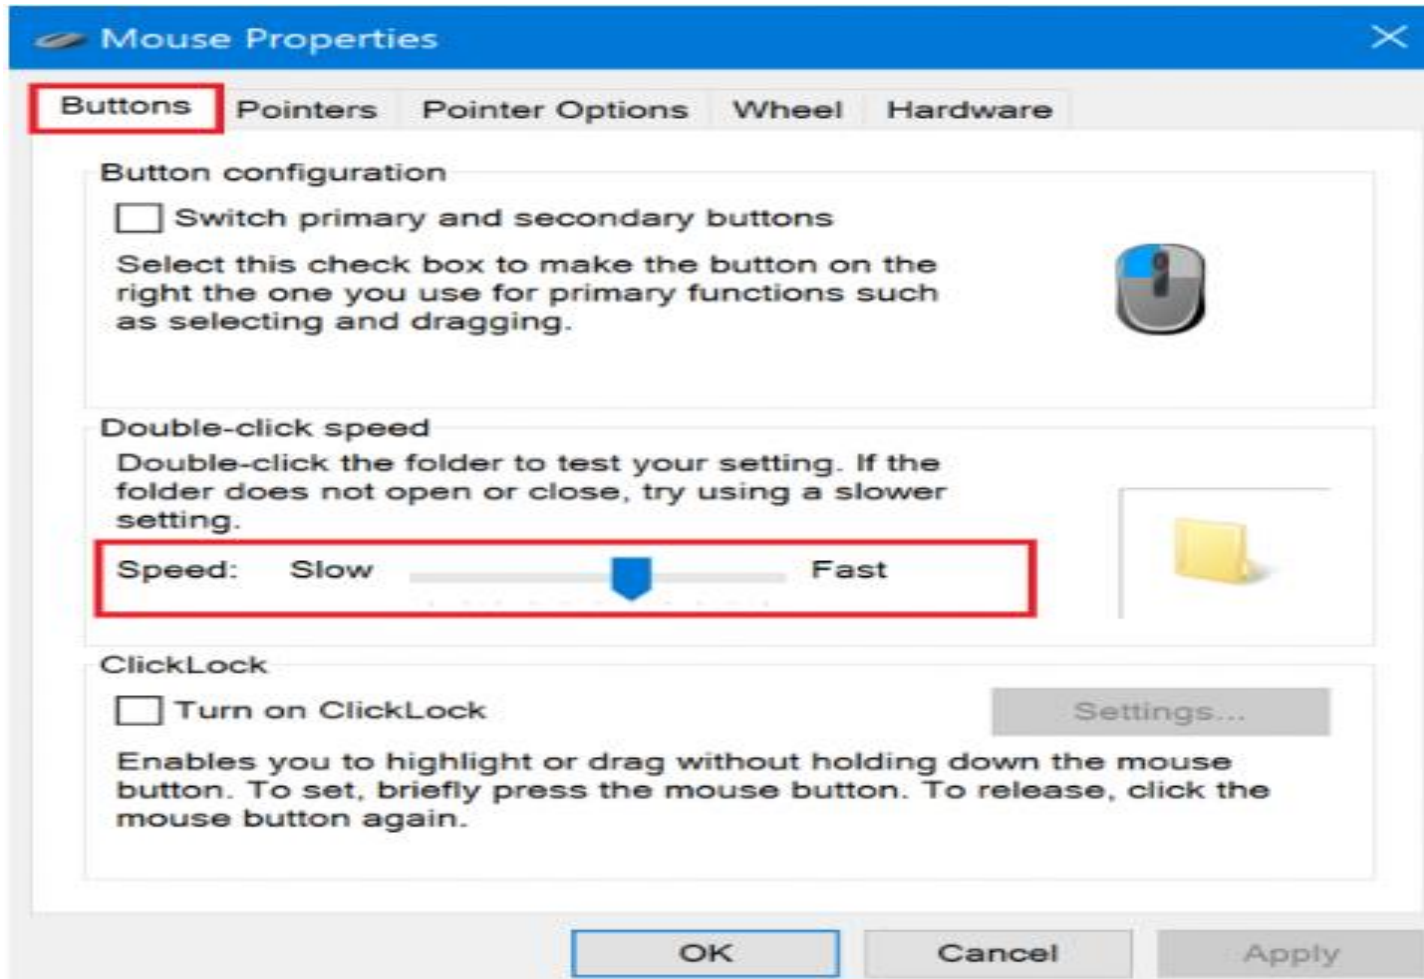

If you want to switch to such behavior to select and drag when you press the right button, you can check.

2- Select the [OK] button to close the screen.

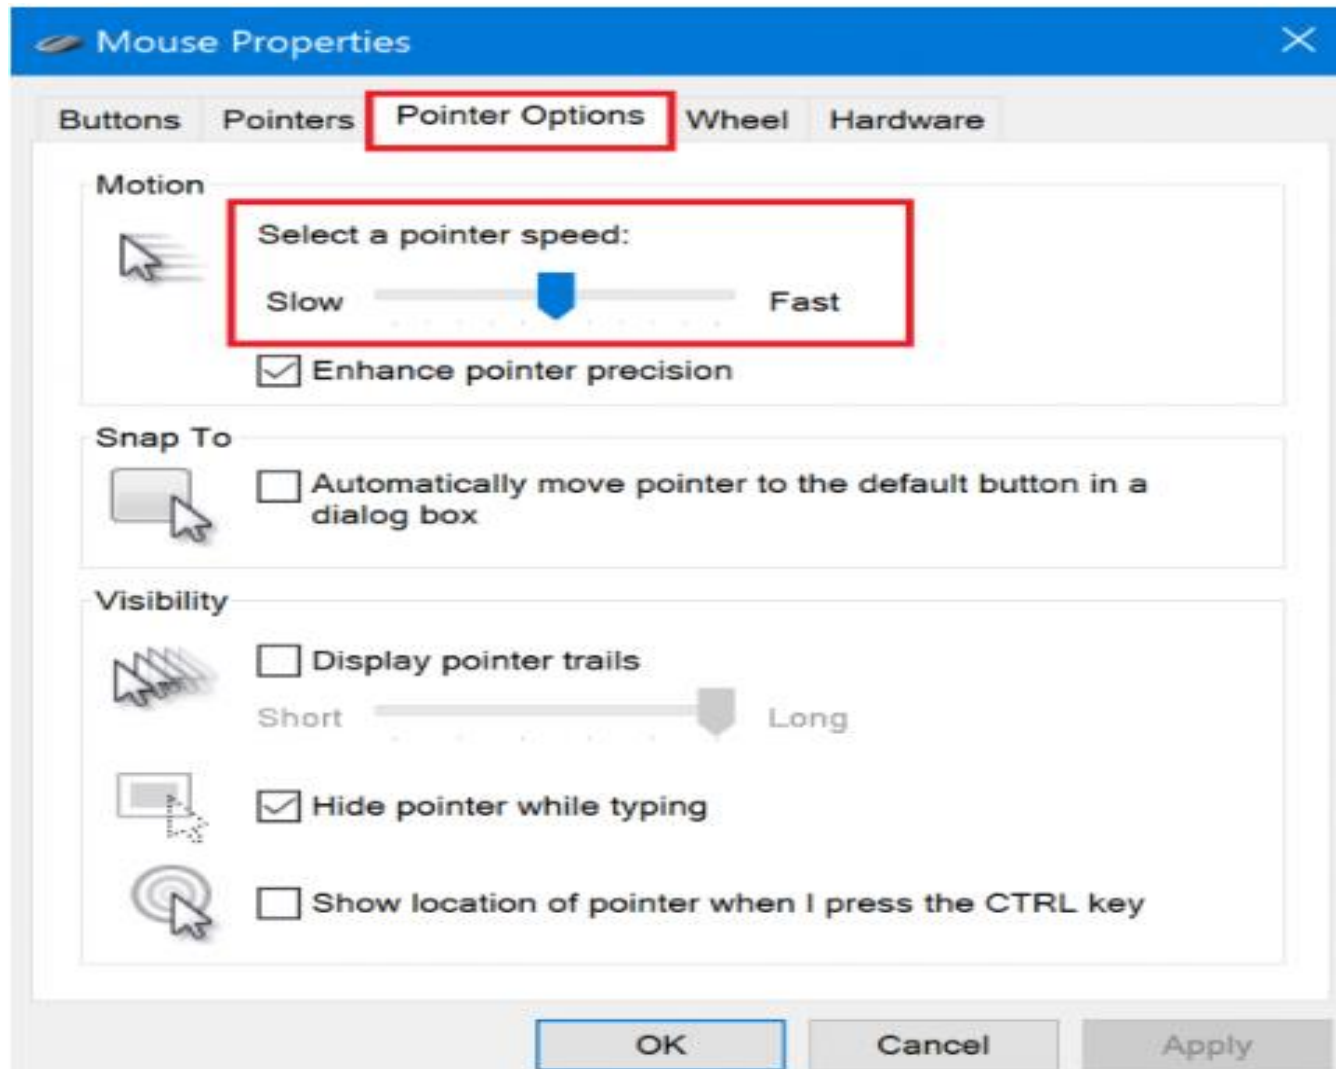

You want to change the double-click speed

- 1- In the Buttons tab of the screen [Mouse Properties], we will adjust the slider in the double-click speed.
- 2- Select the [OK] button to close the screen.

You want to change the speed of the mouse pointer

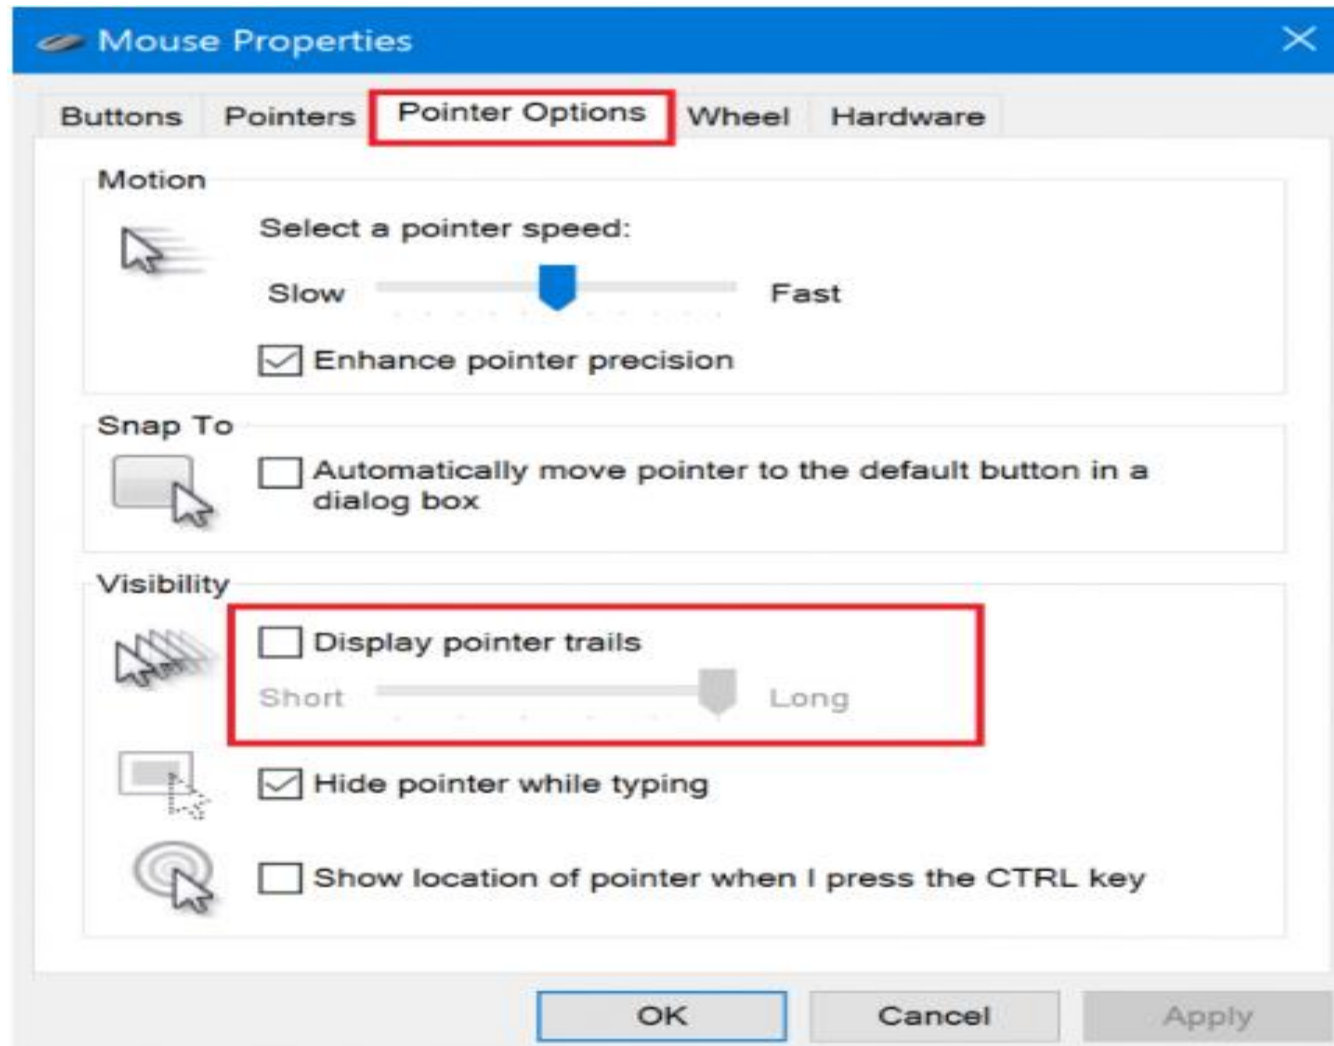

- 1- Select the **Pointer Options** tab in the **Mouse Properties** window, you will adjust the slider of the **speed of the pointer**, which is displayed in the speed.
- 2- Select the **OK** button to close the screen.

I want to enable or disable pointer trails.

1- Select the **Pointer Options** tab in the **Mouse Properties** window, make sure that is checked to display the trajectory of pointer in the display.

If enabled, you can adjust the slider to put a check next to [display the trajectory of the pointer]. If you want to disable it, uncheck to display the trajectory of the pointer.

You want to change the design of the mouse pointer

1-In the Pointers tab of the Mouse Properties window, you can change the appearance of your mouse pointer.
